

## MB-R Series

The Fryer MB-R Series is the perfect mill for jobshop and toolroom applications. Equipped with a rigid spindle and optional tool changer, this machine is capable of single or multi part production. The user-friendly control allows fast and efficient shop floor programming. Rigid box way construction and heavy duty Meehanite castings provide high performance cutting capabilities.

### More Standard Features Than Any Other Builder

- Rigid fixed spindle.
- High speed spindle 100-6,000 RPM.
- Box way construction.
- Hand built precision +/- .0002" entire travel.
- Menu style conversational programming.
- 10.0 GB part storage memory.
- DXF file input feature with touch screen.

### Construction Features

- Designed and built in the U.S.A.
- Certified FC-30 Meehanite castings.
- Precision ground Double-Nut ballscrews.
- Turcite B on all sliding ways & gibs.
- Precision 40 taper spindle with class 7 bearings.
